

# POLAR THERMAL PACKAGING LTD

20L Carry Bag

Product code: P20CB

Used to transport and store vaccines and other medical products. Suited for community hall or school vaccination programs. Can be supplied with cool blocks to extend thermal performance and thermal sheets

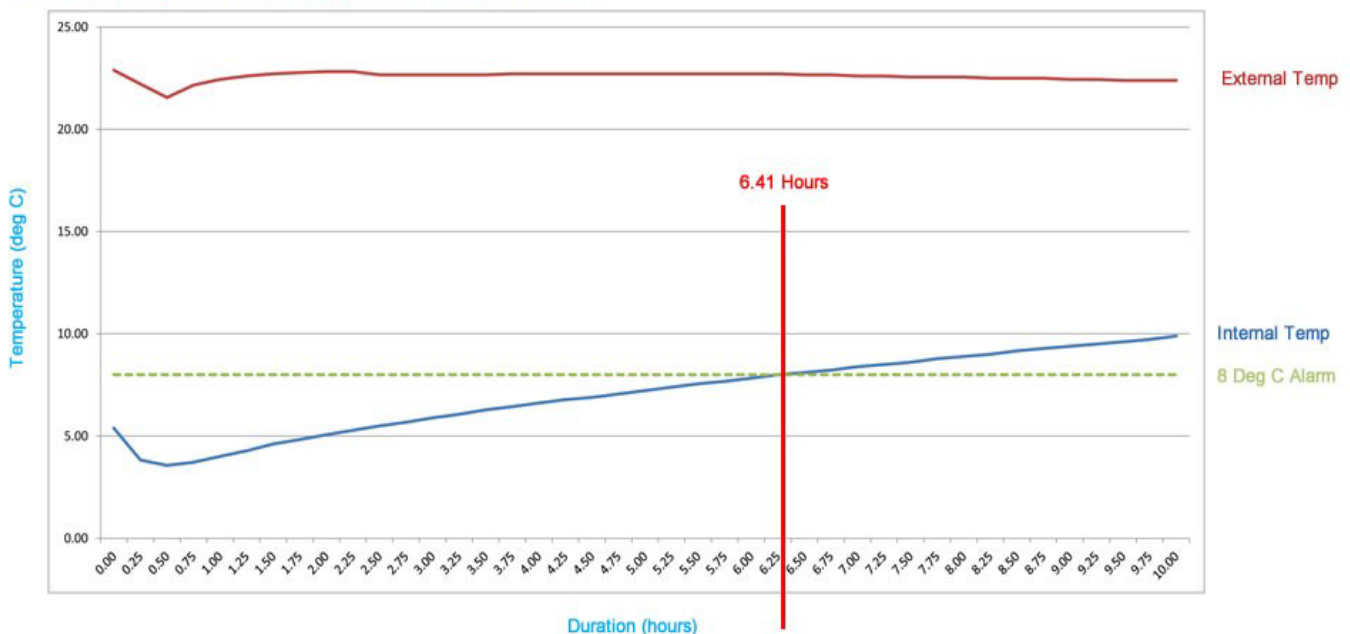

between layers of vaccines. Can also be supplied with a trolley for easy transportation.

A unique triple layer insulation developed from the NASA space programme. It comprises an inner reflective layer, a hollow fibre filler and a robust woven PVC. It is lightweight, hygienic, easily cleaned and complies with the UK and US safety requirements.

**All products are waterproof, anti-fungal and have rot proof stitching**
